CITY OF GENESEE NEWSLETTER

FEBRUARY 2024

Important Water and Sewer Update!

Water Project Update

The City will begin phase 2 of the water improvement project in the spring of 2024. Phase 2 includes drilling a new well, (Well #9) at the north end of Laurel St. near the east water reservoir, and construction of a well-house in the same location. Anticipated start date for construction is April 2024.

Wastewater Project Update

Western Construction has suspended work at the treatment site southeast of town until the site dries out and allows production to resume. Until then, Western will be working in town constructing a new wastewater lift station at the intersection of Cass and Garfield St. That should be completed by Feb 15th. Crews will then begin constructing another wastewater lift station near the bridge at Laurel and Oak St., and adding new wastewater pipe on Oak St. from Laurel St. to Tamarack St. Anticipated duration of this phase is Feb. 15 – April 30. Access to Oak St. bridge will be limited during this phase. Please also expect temporary water service interruptions for water main improvements in these areas. Thank you for your patience.

Please move your garbage carts off the side of the road after the garbage has been collected on Mondays. This helps our maintenance guys when they are out clearing our streets of snow or other debris. Thank you for helping keep our streets clear!

GENESEE SCHOOLS INVITES YOU TO PARTICIPATE IN A BRIEF 2-MINUTE COMMUNITY WIDE SURVEY. YOUR INPUT WILL SHAPE FUTURE PROJECTS AND ADDRESS COMMUNITY NEEDS. JOIN US IN BUILDING A BRIGHTER FUTURE TOGETHER.

 PLEASE USE THE QR CODE OR TYPE IN THE LINK TO COMPLETE THE SURVEY
