Water Project: lots of action going on at the Well site; footings and other site work being done. Had to adjust some electrical equipment and hoping to get the slab poured by the end of next week. Currently the breaker panel is at a 14 week lead time. Beginning or middle of June everything should be in place. Once disinfection procedures are done, we will do more water testing before bringing everything online.

INTRODUCTION, READINGS AND ADOPTION OF ORDINANCES & RESOLUTIONS-None

Mayor Update: John volunteered for a committee to review the City's garbage contract. They have asked for proposals from Inland North Waste and Sunshine Disposal. There will be another meeting next Friday and then the committee will make a recommendation before the Latah County Commissioners.

Bill Krick – Water and Sewer Update: Bill discussed more on the Well site and how they plan to install the pump. Ryan mentioned discussions about adding a water sensor, but it's quite costly. They would need to know before the pump is installed. We might want to discuss at a future meeting. Once all of this is taken care of, we can begin Well #9.

Cody Bailey – Street Update: None
